**i forwarded you the link to the PALS obstruction of justice
(falsified report)**

specific false reports constituting obstruction of justice include stating that there was nobody in the cubicle when i called the police.

you should be able to hear the terror in my voice when i called: the nurse was PRESENT IN THE

CUBICLE AS WERE THE SECURITY GUARDS.

the nurse attempted to violently snatch my phone, i can be heard screaming in terror "don't steal my phone".

i terminated the call and began recording video then hid it in my belt pouch.

during that period it should be possible to ascertain that there were people in the cubicle. not just from voice but visually.

that they SPECIFICALLY lied is an indication that they have WITHELD the bodycam video evidence.

if they had not withheld it (quantity three security guards storming the cubicle) then it would not be possible for them to lie stating "he was on his own, there was nobody in the cubicle when he called the police".

the DOCTORS were in the cubicle when i cried out in terror, realising the danger i was in, and called the police.

they both backed away with fear in their eyes at my immediate reaction to call for help, which was when the cubicle was stormed by the nurse and security guards.

absolutely no effort was made to communicate with me in a respectful way.

not one single question was asked.

i was givn demand after demand after demand, which terrified me and resulted in physiological shock, making it impossible for me to keep my balance or properly control my arms and legs.

my arms and legs were shaking so badly, and my inner ear so badly affected, i knew it would be dangerous to try to stand up.

(this happened before on the other violent assault of 26th october 2024).

bottom line they are outright lying to you in order to protect their jobs, at my expense. these are pathological and dangerous people who have clearly done this many times, not just to me but to others
