The Insolvency Service Complaints Form

Thank you for contacting the Insolvency Service.

Your reference number is OC-2025-144171 and a copy of your complaint has been sent to the email address you provided on the form.

If you have not already tried to resolve your complaint informally with the person you've been dealing with or their manager, we may refer your form to the appropriate business area to be dealt with outside of the complaints process.

We aim to reply to your complaint by email within 10 working days.

Further [details of our complaints procedure](#) can be found on [GOV.UK](#).

We're sorry you feel the need to complain.

Before completing this form, you should read our [complaints guidance](#) which sets out how our complaints process works and what you can expect from us.

We can look at complaints where you feel that we've failed to provide our usual standard of service.

Our complaints process cannot be used to re-examine a decision about your case, unless there is evidence that we have not followed the correct processes, policies or legislation. Where we think this is the case, we will contact you and we may not progress your complaint any further.

If your complaint is about a private sector insolvency practitioner, visit the [IP Complaints Gateway](#).

Any fields marked with an asterisk (*) must be completed to submit the form.

About your complaint

Please describe your complaint. *

Where possible you should include details like:

- the name of any individual that you have spoken to or wish to complain about;
- details about what has gone wrong or not been handled properly;
- how you would like us to resolve your complaint.

I was violently assaulted on 15th Jan 2024, witnessed by an employee, by my co-directors of RED Semiconductor Ltd. they caused an Ischemic stroke. on the 16th they had a meeting without notifying me, voted themselves extra shares then voted I resigned. they then recklessly filed on the 17th Jan 2024 that I had resigned. I found out all of this months later, as I was fighting for my life from approximately four Ischemic strokes per week, and had pneumonia for over two months. I have now had over 300 Ischemic strokes, at least 20 of which robbed me of the ability to speak. I have had MRI scans confirming extensive brain damage and damaged cerebral arteries. that is the minimum story. I have informed you repeatedly of breathtaking fraud including DAVID CALDERWOOD claiming to be authorized by Company's House to make public malicious false claims and lying to a UK Minister, SAQIB BHATTI MP. I have not received even one response. I expect you to contact me, respect that I am severely at risk of death if distraught, to investigate and to contact the police, and provide them with evidence.

Have you complained before about this? No
